Product Category(ies): Gauze Sponges (balls),
Sterile Hemostasis Adhesive Dressing Series
(Sterile Wound Plaster / Liquid Transfusion Plaster / Adhesive Dressing),
First-Aid-Kit (Box)(medical scissor, medical adhesive tapes, hemostasis adhesive dress, gauze sponges, medical bandages, PVC glove),
suction catheters, feeding tubes, rectal tubes,
nasal oxygen cannulas, oropharyngeal airways,
colostomy discharge bags, suction connecting tube with and without yankauer, umbilical cord clamp,
urine drainage bag, Cotton swab, Tongue depressor,
Male external catheter, Oxygen mask, Nasal Specula,
Non-Rebreath Mask, Aerosol Mask(Nebulizer mask),
sterile examination gloves (latex), Surgical Gowns

The Certification Body of TUV SUD Product Service GmbH declares that the aforementioned manufacturer has implemented a quality assurance system for manufacture according to Annex V, section 3 of the Directive 93/42/EEC on Medical Devices. This quality assurance system covers those aspects of manufacture concerned with securing and maintaining sterile conditions of the respective product / product categories and conforms to the provisions of this Directive. It is subject to periodical surveillance. See also notes overleaf.

Report No.: 70198828703
Valid until: 2009-10-06

Date, 2007-05-04

Reiner Krumme

TUV SUD Product Service GmbH is Notified Body according to Council Directive 93/42/EEC concerning medical devices with identification no. 0123.

MC1

MC1 BLEACHED ABSORBENT GAUZE ROLL
100% COTTON, 40'S, 32'S OR 21'S. 1PLY, 2PLY OR 4PLY.
PACKING: Individually wrapped into roll or Zig-zag packing,according to the customers'requirement
MESH:12x8,20x12,19x15,24x20,26x18,28x24
WIDTH:65cm,120cm,36"
LENGTH:50M,100M,100YDS,2000YDS,3000YDS

MC2 PRE-WASHED ABSORBENT GAUZE ROLL
MC2-01 11cm x 373cm-6Ply
MC2-02 11cm x 400cm-6Ply

MC3 GAUZE SPONGES (Gauze Swabs) for medical use
Non-Sterile With or without X-ray detectable Thread(60% Ba SO4)
Edge Folded or Unfolded
Mesh: 20x12,28x24,26x18,19x15,24x20
Specification Packing(100pcs/pack):
2" x2"-8ply, 12ply, 16ply
3" x3"-8ply, 12ply, 16ply
4" x4"-8ply, 12ply, 16ply
4" x8"-8ply, 12ply, 16ply

MC4 Sterile Gauze Sponges
2" x2"-8ply, 12ply, 16ply
3" x3"-8ply, 12ply, 16ply
4" x4"-8ply, 12ply, 16ply
With or without X-ray detectable Thread(60% Ba SO4)
Packing varies from 1's,2's up to 10's/pack.
Pack:A:in paper bag B:blister packing

MC4a Paraffin gauze pad (Size:10cm X 10cm)

MC5 Cutted Absorbent Gauze

Meeting the international quality criteria (Europe); EN149; 2001; CE0121

Made with three-ply nonpoisonous, non-allergic, non-stimulating material. Adjust the bandage strip and the built-in bandage foam cushion to adapt to various face-shapes with comfortable sealing. The high-efficient and strong electrostatic filtering materials effectively filter the solid particle dust, and prevent the oil liquid gas. It is applicable in such places as construction, mining, textile, grinding medicine, disintegration projects,cement, agriculture and animal husbandry, cutting dust, pollutes from heavy metal.

MC72 DM0401 A-30 MC74 DM0401 A-29

Meeting the international quality criteria(Europe); EN149; 2001; CE0121

Made with grade P2 compound material. Special and soft foam is used as the inner layer of the bandage to ensure the best airtight on the face. It is easy it take alone and store because it is folding. The dustproof density reaches 12 times, effectively filter the solid particle dust, and prevent the oil liquid gas. It is applicable in such places as medical, mining, construction, grinding medicine, casting, agriculture, forestry and animal husbandry, electronics, food processing, cement, textile, disintegration projects, cutting dust, glass, pollutes from heavy metal.

MC71 DM0401 A-70F MC73 DM0401 A-30F

MC75 DM0401 A-29F

Meeting the international quality criteria(Europe): EN149:2001 CE0121

Made with grade P2 compound material. Special and soft foam is used as the inner layer of the bandage to ensure the best airtight on the face. It is easy it take alone and store because it is folding. The dustproof density reaches 12 times.The special high-efficient CPC flow breather valve,strictly to the OEL,makes your breath easy by reducing heat accumulation. It is applicable in such places as medical, mining, construction, grinding medicine, casting, agriculture, forestry and animal husbandry, electronics, food processing, cement, textile, disintegration projects, cutting dust, glass, pollutes from heavy metal.

MC76 DM0401 A-20-C

Meeting the international quality criteria(Europe); EN149; 2001; CE0121

Made with four-ply material. High-efficient adsorption. Strong electrostatic, filtering material. Manufactured with active carton cloth. Adjustable aluminium strip bandage with built-in foam cushion. Suitable for various face-shapes with comfortable sealing. The high-efficient adsorption and dustproof make it more effective in such conditions as in adsorbing and dispelling organic gas and acid and bad smells, and in preventing stimulating poisonous and stink gases. It is applicable in harsh work conditions as in chemical industry and pesticide, solvent cleaning, paint spraying and printing, ink and dyeing.

The high-efficient adsorption and dustproof make it more effective in such conditions as in adsorbing and dispelling organic gas and acid and bad smells, and especially in stimulating conditions as organic gas.acid volatile mater,pesticide and sulfur dioxide,also it is applicable in harsh work conditions as in chemical industry and pesticide, solvent cleaning, paint spraying and printing, printing ink and dyeing.

MC97 M0401 AC-07F-C MC99 DM0401 AC-27F-C

Meeting the international quality criteria(Europe):EN149: 2001;CE0121

Made with four-ply material. High-efficient adsorption. Strong electrostatic, filtering material. Manufactured with active carton cloth felt. The breather valve makes your breath easy by reducing heat accumulation. The built-in silica gel dustproof flake ensures a sound sealing. Adjustable aluminium strip bandage with built-in foam cushion. Suitable for various face-shapes with comfortable sealing. The high-efficient adsorption and dustproof make it more effective in such conditions as in adsorbing and dispelling organic gas and acid and bad smells, and espeeially in stimulating conditions as organic gas,acid volatile mater,pesticide and sulfur dioxide,also it is applicable in harsh work conditions as in chemical industry and pesticide, solvent cleaning, paint spraying and printing ,printing ink and dyeing.

MC100 DS 4520/4530 (DAC4L)

Conforms to EN149: 2001: FFP2 FFP3 standard with CE marking

Low breathing resistance with high filtration efficiency. Loaded polypropylene material without any toxic, irritating, stimulant, poison.

Adjustable nosepiece and inner foam circle provide a custom seal for different facial sizes.

Specially designed to fit larger facial contours and with 4 plastic welding ears and adjustable wider straps.

Special 4-ply pleated design, high filtration and static electricity material, high efficient active carton cloth to resist low toxic,pre-filter against nuisance organic acid vapors.

Suited to chemical , chemistry solution, printing ink, dyeing, auto building, ships building, electronic, food, manufacturers, processing, environmental sterilizing, and worse workshops.

MC101 DS4522/4532 (DAC4L-F)

Conforms to EN149: 2001: FFP2 FFP3 standard with CE marking

Low breathing resistance with high filtration efficiency. Loaded polypropylene material without any toxic, irritating, stimulant, poison.

Adjustable nosepiece and inner foam circle provide a custom seal for different facial sizes.

Specially designed to fit larger facial contours and with 4 plastic welding ears and adjustable wider straps.

Special 3-ply pleated design, high filtration and static electricity material, high efficient active carton cloth to resist low toxic,pre-filter against nuisance organic acid vapors.

Suited to chemical , chemistry solution, printing ink, dyeing, auto building, ships building, electronic, food, manufacturers, processing, environmental sterilizing, and worse workshops.

MC102 DS4720/4730 (DTC3R)

Conforms to EN149: 2001: FFP2 FFP3 standard with CE marking

Low breathing resistance with high filtration efficiency. Loaded polypropylene material without any toxic, irritating, stimulant, poison.

Adjustable nosepiece and inner foam circle provide a custom seal for different facial sizes.

Specially designed to fit larger facial contours and with 4 plastic welding ears and adjustable wider straps.

Special 3-ply pleated design, high filtration and static electricity material, high efficient active carton cloth to resist normal toxic,and tiny micron particle.

Suited to mining, building, grinding grugs,casting, agriculture, farming, electronic, food processing, cement textile, disintegration, caving, hravy metal pollution, gardening, glass... ect workshops.

MC103 DS4722/4732 (DTC3R-F)

Conforms to EN149: 2001: FFP2 FFP3 standard with CE marking

Low breathing resistance with high filtration efficiency. Loaded polypropylene material without any toxic, irritating, stimulant, poison.

Adjustable nosepiece and inner foam circle provide a custom seal for different facial sizes.

Specially designed to fit larger facial contours and with 4 plastic welding ears and adjustable wider straps.

Easy-breathing exhalation valve with silicon piece inside designed to facilitate air exchange,increase worker comfort.

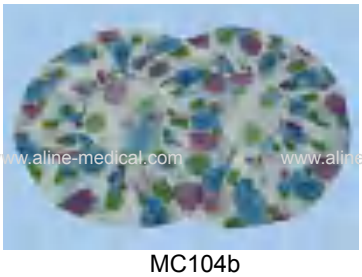

Special 3-ply pleated design, high filtration and static electricity material, to resist normal toxic,and tiny micron particle.

Suited to mining, building, grinding grugs,casting, agriculture, farming, electronic, food processing, cement textile, disintegration, caving, heavy metal pollution, gardening, glass...ect workshops.

Available color : beige,blue,grey
Material :
Use two layers of UV stabilized treated nonwoven fabrics and one layer of breathable film
Efficiently compounded by ultrasonic-bonding materials.
Sewing Method : stitching or ultrasonic
Characteristic :
Good effect on uv stabilized,and durable;
Soft in handling,harmless to the car surface
Good 3D looking,excellent in breathabilities-able to eject high temperature or humidity air inside out;
Best with waterproof;
Prevent damage from rain,or snow to it's car body;
Easy to use and operate

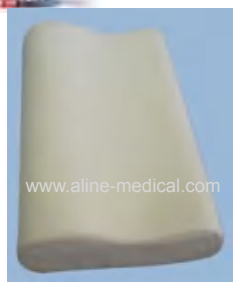

MC155

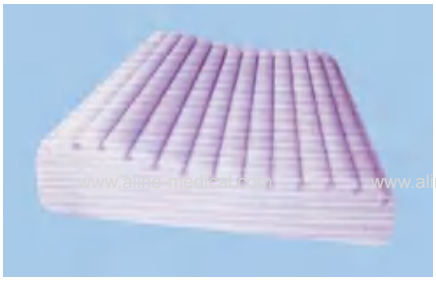

MC155 Motorcycle cover
Available color : grey,blue,black
Material :
use of single layer of UV stabilized treated nonwoven fabric or compounded nonwoven fabric
Sewing Method : stitching
Characteristic :
artifice design,easy to use;
durable,with UV stabilized treatment;
dustproof,rainproof,and sunproof;
excellent in breathabilities

MC193 Type A Transparent Semi-permeable Dressing

MC193 Type A Transparent Semi-permeable Dressing

Features:
1.Transparency: The film is ultra thin and high transparent, hence clear observation to surgical operation part.
2.Permissibility: No effect to normal breath of the skin, protection from water building-up under the film, thus reducing infection and providing a germ-free environment for surgical cut.
3.Water and bacteria proof- capabilities keep water, bacteria and dir out so you may continue with your daily routine (e.g. shower and bath)
4.Low sensitivity & moderate viscosity: no irritation to wound and no injury to skin when removing the dressing.
5.High Elasticity: Compliant binding on skin along body curve, hence reliable binding.
6.Ultra-thin and high elasticity-make it comfortable to wear.

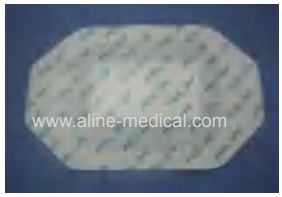

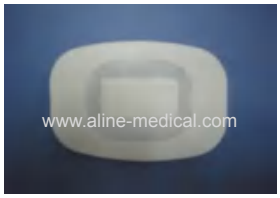

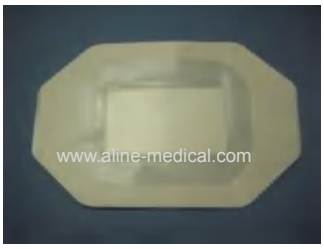

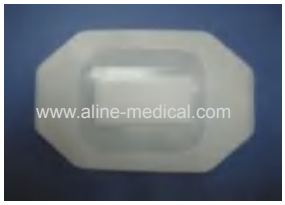

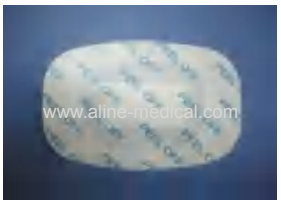

Description for use:
1) May be used for fixing and covering IV catheters, central venous catheters, pulmonary artery tubes, demulcent pump tubes and insulin pump tubes
2) Minor skin abrasion and minor first and second degree burns:
Protects the wound site from being contaminated and rubbed
Reduces the sensitivity of the nerve endings to reduce the pain
Does not stick to the surface of the wound when being released
3) Surgical wound protection: you do not have to remove the dressing to observe the wound site, therefore it does not irritate the wound and it is of light weight and comfort. The waterproof function enables bathing
4) Surgical operation dressing: transparent with higher elasticity than the normal dressing and more convenience for using to protect the wound

MC194 Type B Transparent Island Dressing

MC195 Type C Transparent Island Dressing

MC194 Type B Transparent Island Dressing

Features:

1.Transparency: The film is ultra thin and high transparent, hence clear observation to surgical operation part.

2.High absorbability-may absorbs the tissue fluid quickly and do not adhere to the wound.

3.Permissibility: No effect to normal breath of the skin, protection from water building-up under the film, thus reducing infection and providing a germ-free environment for surgical cut.

4.Water and bacteria proof- capabilities keep water, bacteria and dir out so you may continue with your daily routine (e.g. shower and bath)

5.Low sensitivity & moderate viscosity: no irritation to wound and no injury to skin when removing the dressing.

6.High Elasticity: Compliant binding on skin along body curve, hence reliable binding.

7.Ultra-thin and high elasticity-make it comfortable to wear.

Description for use:

1)Minor skin abrasion, minor first and second degree burns.

Protect the wound site from being contemned and rubbed. Weaken the sensitivity of the nerve endings to reduce the pain. It does not stick to the surface of the wound when it is released. Its waterproof function ensures you to bathe.

2)Surgical wound protection

You do not have to remove the dressing to observe the wound site, therefore it does not irritate the wound and it is of light weight and comfort.

MC195 Type C Transparent Island Dressing

Features:

1)Permissibility:tyhe network structure of spun-laced non-voven cloth can make skin breathe freely,get rid of steam and sweat,thus reducing the occurrence of wound infectin effectively.

2)Low sensitization :the medical pressure-sensitive adhesive to bind on skin has moderate viscosity;has no irritation to wound and no injury to skin whten removing the dressing

3)No binding to wound:the absorptive pad with network cover will not stick ,and can absorb effusion effectively without any sticking to wound;thus causing no pain when removing the pad.

4)Compliance:being soft,light and elastic ,the material can comply with body outline and curves without andy obstacle to muscle action

Description for use

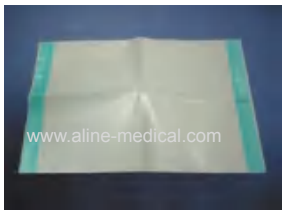

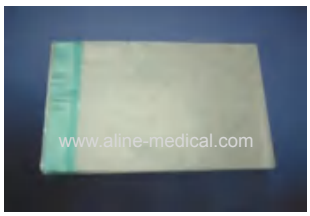

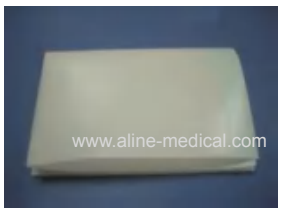

Protects the wound site after surgical operations.

MC196 Type D Medical Operation Thin Film

1.Transparency: The film is ultra thin and high transparent, hence clear observation to surgical operation part.
2.Permissibility: No effect to normal breath of the skin, protection from water building-up under the film, thus reducing infection and providing a germ-free environment for surgical cut.
3.Water & Germ Resistance: Prevention from invasion of water, germ or foul and restrain wandering about of germ during operation.
4.High Elasticity: Compliant binding on skin along body curve, hence reliable binding
5.Low sensitivity & moderate viscosity: no irritation to wound and no injury to skin when removing the dressing.
Description for use:
Protection of operation parts before and during the operation and prevention from cross infection.

MC197 Heel film dressing

Features:Transparency,waterproof and bacteria proof,breathe freely,low sensitivity & moderate viscosity,high elasticity and moderate viscosity.
Description for use:Prevention and cure skin chap,it has favorable prevention on weather and different reason cause heel and hand chap.

MC198 Plaster of Paris Bandage Series

◆Description:Having adopted the advanced automatic producing line,the P.O.P bandage is suitable for instant use.Smooth and fluidified plaster can cover the gauze completely. It's the necessary product for surgery treatment.
◆Advantages:Permeable well to water,strong setting characteric,less loose of plaster. Reliable casting,smooth and neat outlook.
The quick setting time of 3-5 minutes bring about more safety,steady and comfort to the patients.
◆Indications:
Fixation of all kinds of bone fractures
Orthopaedic plastic
Fixation of surgical operation
Fixation of first-aid
◆Package:Each bangage is wrapped individually in a waterproof bag.The outer package is strong cardboard carton to keep best storing condition

MC199 Orthopaedic Padding

◆Description

Orthopaedic padding is the wide-used supporting material for surgery and swaddling of plaster of paris bandages.

Made of natural or synthetic non-woven fabrics or cotton.

◆Advantages

Soft,smooth and conformable to the body's shape.It is tearable and featherable,has low moisture retention,and is porous enough to allow air circulation and to reduce skin irritation.

◆Indications

It can be used under all types of casting materials,providing effective,comfortable and safe casting.

◆Package

Each bandage is wrapped in a polyethylene sleeve,twelve bandages are packed in a sealed polyethylene bag.

MC200 Spandex Elastic Bandage

◆Description

Spandex elastic bandage is made of spandex and cotton threads.

Selvaged,with fixed ends,has permanent elasticity.

◆Indications

For treatment,after-care and prevention of recurrence of working and sports injuries,after-care of varicose veins damage and operation as well as for therapy of vein insufficiency.

◆Advantages:high elasticity,washable,sterilizable,non-aging. Extensibility is about 180%.

◆Package

Each bandage is wrapped individually in a waterproof bag.The outer package is strong cardboard carton to keep best storing condition.

MC201 High Elasticity Bandage

◆Description

Permanent elastic strong copression bandage with a high stretch for controllable compression.

The permanent elasticity is due to the use of covered polyurethane threads.

With selvedges and fixed ends.

Made of cotton,polymide,elastic.

◆Advantages

High elastricity,washable,sterilizable.

Extensibility is about 180%.

◆Indications

For treatment,after-care and prevention of recurrence of working and sports injuries,after-care of varicose veins damage and operation as well as for therapy of vein insufficiency.

◆Package

Each bandage is wrapped individually in a waterproof bag.The outer package is strong cardboard carton to keep best storing condition.

MC202 P.B.T Elastic Bandage(Plain or Crepe)

◆Description

P.B.T bandage is made of natural fibre,the material is soft and thin,with high elasticity.

◆Advantages

High elasticity,the joint will not be confined after use P.B.T,will not cause bad blood circulation and movement of the joint,Permeable,will not condense moisture at the wound,convient for carry.

◆Indications

P.B.T bandages have wide usage,suitable for the use of binding all parts of the body,outdoors practice,first-aid swaddle and soft tissue damage.

◆Package

Each bandage is wrapped individually in a waterproof bag.The outer package is strong cardboard carton to keep best storing condition.

MC203 Cotton Elastic Bandage

◆Description

Manufactured to the national specifications,white or bleached with non-fraying leno-bound edges,Cotton-elastic.

◆Advantages

Good skin tolerance,comfortable to wear,permeable to air,absorbent.
Sterilizable,rewashable,non-aging.

◆Indications

For after-care of operation and working injuries,soft tissue fractures and joint swelling,etc.

◆Package

Each bangage is wrapped individually in a waterproof bag.The outer package is strong cardboard carton to keep best storing condition.

MC204a

MC204a Orthpaedic Fiberglass Casting Tape

NICE-CAST is made of polyurethane resin with synthetic fabric, which hardens when exposed to water. It is the newest, non-plaster,casting tape and has largely replaced ordinary plaster of Paris tape. When soaked in water, it hardens and sets in 10 minutes. It will be strong enough to bear weight after 30 minutes.Cast made of NICE-CAST is strong ,light ,porous , water resistaes , and washing causes no deformation. NICE-CAST tape could be used in most cases of fractures and other orthopedic conditions, where casting with plaster of Paris is indicated ,it could also be used in artificial limbs and other orthopedic bracing purposes.

SIZE: 2"X4 Yards(5.0cmx3.6m) 3"X4Yards(7.5cmx3.6m)
4"X4 Yards(10.0cmx3.6m) 5"X4Yards(12.5cmx3.6m)

MC204b

MC204b Glass Fiber Splint

Splint is made of thick and soft material to cover skin and protect wound.
It provides superior strength, and superior strength is one of the biggest characteristics required in splint.
Water is not penetrated on the affected part because the non-woven cloth is specially processed.
It protects would region from moisture and gives agreeable feeling to the patient

MC206 Self-adhesive elastic bandage

Characteristics

1.Non-woven material, Soft yet strong fabrics
2.Nature latex coating which give adhesive properties.
3.Conveniently hand tear
4.Water resistant. non-loosen as it sweats
5.Length and width can be made as required
6.Various colors available (check from color display on previous page!)

Benefits

1.Air permeable, skin-friendly, non-slip, therefore ideal for dressings on contoured body parts
2.Protects primary dressings
3.Provide controlled compression

Purpose for use (please consult a doctor before use)

1.Securing pads and dressings.
2.Pressure bandage to promote circulation and healing
3.Compression bandage for hemostasis, varicosity, edema control
4.Sprains and strains
5.Post-operatively leg wrap
6.veterinary use

Specification:2.5×450cm,5×450cm,7.5×450cm, 10 ×450cm,12.5×450cm,15 ×450cm

MC207 Cotton adhesive elastic bandage

Characteristics

1.Cotton and spandex woven fabric
2.Nature latex coating which give adhesive properties.
3.Width and length can be made as required
4.Water resistant. non-loosen as it sweats
5.8 colors available

Benefit

1. Air permeable, skin-friendly, non-slip. Therefore, comfortable for users
2.Good elasticity, provide strong and controlled support
3.Strong stickiness; leave no residue
4 Water resistant. Non-loosen as it sweats
5. Hand tears which make it easy and convenient for users

Purpose for use (please consult a doctor before use)

1.Compression wrap
2.Fixation bandage for padding, knee brace, and cold packs.
3.As a relief dressing in case of distortions and ligaments, contusions, sprains and bruising
4.Compression bandage for hemostasis, varicosity, edema control
5.Securing pads and dressings

Specification:2.5×450cm,5×450cm,7.5×450cm, 10 ×450cm,12.5×450cm,15 ×450cm

MC208 Cartoon self-adhesive elastic bandage

Characteristics

1.Non-woven material, Soft yet strong fabrics
2.Nature latex coating which give adhesive properties.
3.Conveniently hand tear
4.Water resistant. non-loosen as it sweats
5.Length and width can be made as required
6.Various colors available
7.Any cartoon characters can be made as required(e.g,..Mickey Mouse,Donald ducks...)

Benefits

1.Air permeable, skin-friendly, non-slip, therefore ideal for dressings on contoured body parts
2.Protects primary dressings
3.Provide controlled compression

Purpose for use (please consult a doctor before use)

1.Securing pads and dressings.
2.Pressure bandage to promote circulation and healing
3.Compression bandage for hemostasis, varicosity, edema control
4.Sprains and strains
5.Post-operatively leg wrap
6.Veterinary use

Specification:2.5×450cm,5×450cm,7.5×450cm, 10 ×450cm,12.5×450cm,15 ×450cm

MC209

MC209 Elastic and Antibacterial Self Sticky Bandage

Size:5x250cm,7.5x250cm,10x250cm

Function:It is obviously for the antibacterial of the bandage which can effectively kill Staphylococcus aureus,Escherichia coli,Klebsiella pneumoniae,even tens of bacteria and viruses.The sterilization rate of this bandage is above 99.9% tested by Chinese authoritative testing unit-animalcule testing center of Guangdong province.

For various rescue,enswathe wounds directly with this bandage.

Characteristics:

Nice functions of antibacterial,sterlization and eliminating peculiar smell,speed up recovery.
Good permeability.
No stimulation to the skin and no adverse reactions.

MD343 Milk Bottle Sterilizer

1.unique water slot to avoid re-pollution: especially designed water slot can contain the excessive dirty water which is produced during sterilizing to avoid re-pollution.

2.through sterilization: 110 degree inner temperature vapor disinfects for 10 minutes continuously and kill bacteria that can cause tummy upsets in your newborn rapidly and completely.

3.considerate two handles design to be more convenient:
specially designed two handles to be anti—slip and more safe for mom.

4.sterilize 4-6 bottles

5.micro-computer controlled

6.convenient to use, easy to clean

7.safe and health eco-friendly material: stainless steal heater, PC, PP.

voltage: AC110-230V 50-60Hz

power: 400W

MD344

MD344 Manual Breast Pump

1: The silica gel which has massage function can suck out a great deal of breast milk in a short time, and also can eliminate the gall and ache of the breasts during the feeding period

2: The breast pump can suck quickly, comfortably. The mothers can control and choose the suction's speed according to their comfortable condition.

3: Its handle can circumvolve freely and it can be used with varies sizes of milk bottles.

4: Easy to use, convenient to operate.

5: Safe, comfortable and hygienic, don't comprise poisonous chemic material.

6: Material: PP. silica gel

Suction uniformity

Easy to operate

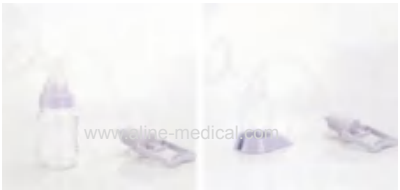

Double expression pump

Has massage effect

Suction can be adjusted

MD345

MD345 Manual Breast Pump

1.unique extended pull handle design: suction can be done by any pose and suction can be increased easily.

2.adjustable suction makes it just like baby's natural suck

3.Universal Contact suitable for varies of bottle.

4.perfect massage effect: its silica gel pad which has massage function makes it easy to suck out a great deal of breast milk in a short time, and also can eliminate the gall and ache of the breasts during the feeding period

5.safe and health eco-friendly material: Material: PP silica gel. Safe, comfortable and hygienic, don't comprise poisonous chemic material.

Strong suction

Easy to operate

Has massage effect

Suction can be adjusted 0mmHg——350mmHg

MD346

MD347

MD346 Powdered Formula Mixer

1: Perfect for blending powered baby formula right inside your baby bottle ----no more lumps!

2: This convenient hand held mixer is easy to use and clean-up is a breeze. Can be used with disposable bottles. Two "AA" alkaline batteries required.

Convenient to using

Easy to clean

For every size bottle

Output the power supply: DC 3V 300mA

Battery: AA, 2EA 1.5V

MD347 Car Bottle Warmer

The portable car bottle warmer makes mom's journey more comfortable. with it, mom can heat breast milk,baby food and feed baby anytime everywhere.

1: It can heat breast milk, milk, milk beverages and baby food.

2: Fast: 40 degree heating band wrapping around entire bottle can not only warm milk and baby food quickly, but also keep the constant temperature for rather a long time.

3: safe: it has a safe switch.

4.simple operation: its plug are fit to all car electrical outlets and It can be brought with you anywhere or hang on the wall.

4: It can be used for varies mouth dimension bottles.

5: Hop-packet design, modern taste

TECHNIQUE PARAMETER:

Voltage: DC 12V

Power: 18W

MD348

MD348 HOME Baby Bottle Warmer

This home baby bottle warmer is designed to heat the food to the best nutrient and comfortable temperature for your baby. it can also keep the temperature constant for rather a long time

1: In order to insure you can feed your baby with ideal breast milk, "snow bear" brand Home bottle warmer adopts advanced high effective technology to heat.

2: performance: fast to warm, exact constant temperature, easy to use etc.

3: It can be used with different kinds of feeding bottles.

4: It just need around 5 minutes to warm breast milk, milk, milk beverages and baby food a time.

5: keep the temperature between 20 degree to 80 degree to insure the food are not boiled overly and the nutrition is not damaged.

6: It has lightness structure, convenient to take along with, easy to clean.

7: Its crust which adopts non-poisonous plastic is more safe for your baby.

Convenient to use

Rapid heating

With water or without water

Keeping temperature on a long time

Voltage: AC110-230V 50-60Hz

Power: 300W

MD349

MD350

MD349 Electric Breast Pump

1.this product is designed to suitable for 110V-230V AC current, with an adapter, and two batteries too.

2. it can eliminate the manual operation tire effectively.

3.electric power insure steady, Strong ,adjustable and comfortable Suction

4..considerate design to be easy to assemble, operate and clean: mom can control and choose their favor suction speed just by turning the adjust ring or the button;

5. with a bottle neck adaptor, it is suitable for every kind of feeding bottles of varies sizes.

6. its silica gel pad which has massage function makes it easy to suck out a great deal of breast milk in a short time, and also can eliminate the gall and ache of the breasts during the feeding period.

7. eco-friendly Material: PP, PC, silica gel, resin of ABS (machine body), be Safe, comfortable, hygienic, don't comprise poisonous chemic material.

Input the power supply: AC110-220V 50-60Hz

Output the power supply: DC 3V 300mA

Battery: AA, 2EA 1.5V

suction: 30-35mhg.

MD350 Feeding Bottle Sterilizer & dryer

1.perfect double function: sterilizing and drying. It is reported that germ can increase very rapidly in moist environment. our product can not only kill bacteria in your feeding bottle, but also keep it germfree for long.

2.three adjustable drying phases according to your need: 20, 40 and 60 minutes drying time for choice;

3.Full automatically and microcomputer control

4.Automatic power deenergization, safe device: when operation is completed or the bucket is removed, the power will be cut off automatically to ensure safety.

5.sample and practical key board: one button to one function. Every operation can be completed just by one button.

6.Fission structure, easy to clean

7.super volume: It can sterilize 8 pieces of 300CC feeding bottles, their nipples and the accessories at a time

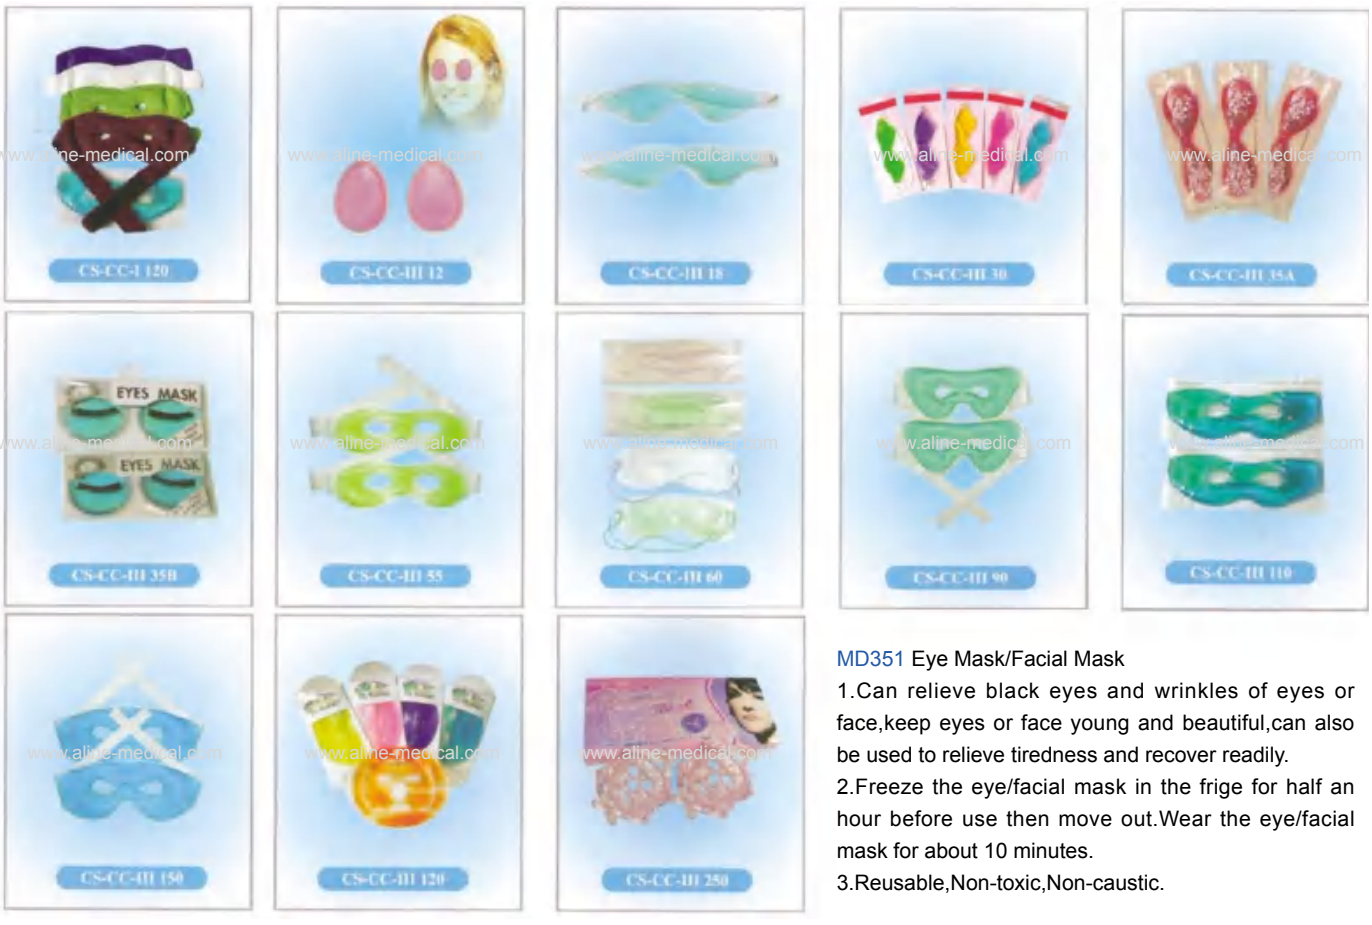

8.High temperature vapor to sterilize: 110 degree inner temperature kills bacteria completely.

9.safe and health eco-friendly material: stainless steal heater, PC, PP

Voltage:AC110-230V 50-60Hz

Power: Sterilize: 400W Dry: 125W

MD351 Eye Mask/Facial Mask

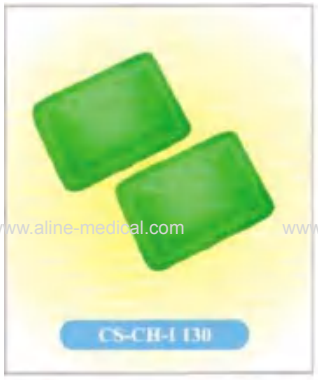

MD351 Eye Mask/Facial Mask

1.Can relieve black eyes and wrinkles of eyes or face,keep eyes or face young and beautiful,can also be used to relieve tiredness and recover readily.

2.Freeze the eye/facial mask in the frige for half an hour before use then move out.Wear the eye/facial mask for about 10 minutes.

3.Reusable,Non-toxic,Non-caustic.
