DIGITAL THERMOMETER HM7

Flexible tip
Measurement time: <1min
Battery: DC 1.5 V(size LR41)
Battery life:About 1000 times (22℃)
Accuracy:±0.1℃,35.5℃~42.0℃ (+0.2°F, 95.9°F~107.6°F)
±0.2℃ under 35.5℃ or over 42.0℃
(±0.4°F under 95.9°F or over 107.6°F)
at standard room temperature of 25℃ (77.0°F)
Digital LCD display (±2mm) Screen size: 9X19.5mm
Measurement range :32.0~42.9C
Product size: 30X16.4X134mm (±5mm)
Product weight: x10g(With battery)

DIGITAL BLOOD PRESSURE MONITOR HM8

One key to measure
Large LED screen
Voice broadcast
Power supply by lithium battery
99 memories for each of 2 users
Automatic power-off in 60s
Pressure range: 0-280mmHg/0-37.3kPa
Product dimension 140*100*43mm
Color box dimension 110*160*100mm
Cuff size: 22-32cm/22-42cm
Product net weight : 268g Memory bank: 2*99

SILICONE BREAST MILK COLLECTOR HM9

Food-grade soft silicone material, BPA-free.
Manual suction design to naturally collect leaking breast milk.
Anti-slip base prevents tipping over.
Available in transparent, pink, light-blue.
Easy to clean, reusable.

MDI SPACER, AEROSOL INHALER SPACER WITH PVC MASK HM10a (HK95a)

Medical aerosol spacer chamber used together with metered-dose inhaler for asthma inhalation therapy.
Transparent anti-static chamber, one-way inhalation valve, soft sealing PVC mask, easy to disassemble for daily cleaning and disinfection.
Available in size S, M, L.

PP MDI SPACER MODEL WITH MASK

HM10b (HK95b)

Simple-structure aerosol inhaler spacer made of medical PP material.
Produced by blow-molding process for cost-effective pricing.
Capacity:400ml
Dimension:66*200mm (widest diameter × height)
Equipped with mask in size S / M / L

MDI SPACER, AEROSOL INHALER SPACER WITH SILICONE MASK

HM10c (HK95c)

Injection-molded inhaler spacer with built-in one-way valve, anti-static chamber.
Fully detachable for thorough cleaning.
Available options:
-S size: for infant use, with silicone mask
-M size: for child use, with silicone mask
-L size: for adult use, with silicone mask
-L size: for adult use, without mask

PPSU BABY SIPPY CUP

HM11

Made of high quality PPSU material, BPA free, high temperature resistant and drop resistant.
3 in 1 interchangeable lids: straight drink lid, straw lid, double handle lid.
Cute rabbit & carrot printed pattern.
Helps toddlers learn independent drinking.
Easy to disassemble for full cleaning.

SEALED BABY MILK POWDER CONTAINER

HM12

Airtight-sealed milk powder storage box with portable hand strap.
Made of food-grade PP material, BPA-free.
Secure locking buckle design, effectively prevents moisture and dust.
Large-capacity interior, suitable for milk powder, baby snacks and cereals.
Multiple pastel-color styles with cute cartoon details.
Easy-grip carry handle for travel and outdoor use.

PP DUAL-DRINK KIDS SIPPY CUP

HM13

Made of food-grade PP material, BPA-free, safe for daily kids use.
Dual-drink design, switch between straw drinking and open-cup drinking.
Dual ergonomic side handles for little hands to grip easily.
Cute cartoon printed pattern with clear volume scale marking.
Flip-type lid for dust-proof, convenient for home and outdoor use.

BREAST MILK STORAGE BAG

HM14

Capacity: approx 250ml, pre-sterilized for direct use.
Double-zip sealing design for leak-proof storage.
With clear volume scale and writing area to mark name, date & volume.
Safe for refrigeration and freezer storage.
BPA-free material, food-grade, safe for breast milk preservation.
Scissor-cut notch for easy tearing when pouring milk.

SPLIT-TYPE SILICONE BABY BIB

HM15a

2-piece detachable silicone baby bib.
Made of food-grade silicone, BPA-free, soft and skin-friendly.
Deep pocket catches food spills effectively.
Adjustable snap buttons for flexible neck size.
Waterproof, stain-resistant, easy to rinse and clean.
Available in 4 matching two-tone color sets.

ULTRA-THIN SILICONE BABY BIB

HM15b

Lightweight ultra-thin silicone feeding bib for babies.
Cute cartoon printed patterns, multiple styles available.
Deep food-catching pocket to catch drips, saliva and food scraps.
Adjustable snap buttons for a comfortable, secure fit.
Waterproof, stain-resistant, easy to rinse and clean.
Soft and flexible, foldable for convenient travel and storage.
BPA-free, safe for baby daily use.

6-PIECE SILICONE BOTTLE CLEANING BRUSH SET HM16

Includes bottle brush, nipple brush, straw brushes and cleaning sponge.
Soft food-grade silicone bristles, scratch-free, no-hair-shedding.
Effectively cleans bottles, nipples, straws and baby tableware.
Easy to rinse and air-dry, resistant to high-temperature disinfection.
Practical hanging-hole design for convenient storage.

BABY NASAL ASPIRATOR & NOSE TWEEZER SET HM17

Oral-type baby nasal aspirator with soft silicone tip and PC main body, anti-backflow design for safe snot suction.
Matching round-tip safety tweezers gently remove dry boogers without scratching baby's delicate nasal skin.
Comes with dedicated cleaning brush for tube washing.
BPA-free, suitable for newborns 0+ months.
Packed in color blister card.

ORAL SYRINGE 10ML WITH TUBE HM18

The core application is to precisely and gently deliver the liquid medicine to the deep oral cavity (such as the buccal mucosa) of infants and young children or those with difficulty swallowing through a slender catheter, maximizing the resolution of problems such as drug resistance, liquid spillage, inaccurate dosage, and the risk of choking.

ORAL APPLICATOR HM19

ORAL APPLICATOR is to safely and accurately deliver medicine into the mouths of infants or young children, solving problems such as children's resistance to medicine, medicine spillage and inaccurate dosage.

DOSAGE DROPPER HM20

It is used for feeding complementary foods to infants and young children. The dropper has a scale, which is convenient for controlling the amount of food to be fed. It is suitable for both liquid and liquid foods

ELECTRIC BABY NAIL TRIMMER KIT HM21

Safe-design electric nail trimmer specially for babies.
Adjustable 5-speed working modes (R2-R1-0-L1-L2).
Comes with 6 replaceable grinding heads for different use stages.
Low-noise & shock-proof, will not hurt baby's tender nail skin.
Smoothly trims and polishes baby fingernails and toenails.
Compact storage case for easy carrying and storage.

3-LAYER BABY MILK POWDER CONTAINER HM22

Detachable 3-layer stackable design for storing milk powder, snacks and dried food.
Made of food-grade PP material, BPA-free.
Comes with portable hanging loop, easy to carry for outdoor trips.
Cute cartoon animal-shaped lid, multi-color options available.
Each layer can be used separately.

VERTICAL BABY BOTTLE DRYING RACK HM23

Tree branch shaped bottle drying stand with removable water drip tray.
Designed for air drying baby bottles, nipples, straws and feeding accessories.
Quickly drains residual water to avoid mold.
Space-saving vertical design, easy to assemble and clean.
Available in grey white, teal white.

HOT WATER BAG HM24

Daily warmth: In winter, it is used to warm hands, feet and quilts, providing continuous heat for local parts of the body, especially suitable for people with cold hands and feet.

CARTOON PLUSH HOT-WATER BOTTLE COVER HM25

Cute animal-shaped plush cover for 500ml hot water bottle.
Soft fluffy fabric, comfortable hand-feeling for warmth and anti-scald protection.
Multiple lovely cartoon designs (pig, penguin, fox, bear).
Easy to put on and take off, washable for repeated use.
Only the plush cover, hot-water bottle not included.

REUSABLE MOLDABLE WAX EAR PLUGS, 6 PAIRS HM26

Soft malleable-wax earplugs, can be shaped to fit your ear canal perfectly.
Effectively blocks ambient noise for better sleep, study and travel.
Skin-friendly material, comfortable to wear, no pressure on ears.
Reusable, portable storage box included for easy keeping.
6 pairs per pack.

REUSABLE MOLDABLE SILICONE EAR PLUGS FOR SWIMMING & SPORTS HM27

Soft-moldable silicone material, shape freely to seal your ear canal.
Waterproof design, ideal for swimming, bathing and water sports.
Reduces ambient noise meanwhile keeps water out of ears.
Reusable, skin-friendly, comfortable for long-time wearing.
1 pair per blister card package.
Available in orange blue red white green etc colors.

HEATING PAD HM28

The heating pad is to provide local heat care for the body through controllable warming effects. It is mainly used to relieve muscle soreness, keep warm and assist in improving local discomfort.

PREVENT BEDSORE AIR MATTRESS HM29

In family hospitality, rental transition, camping and picnic scenarios, etc., it can be used as a temporary bed to solve short-term sleep problems.

It is small in size and can be folded and stored, which is convenient to carry and store, and does not take up daily space.

STAINLESS STEEL FLEA COMB HM30

Precise parasite removal: The teeth of flea combs are extremely fine (usually with a tooth spacing of less than 0.1 millimeters), much narrower than the size of fleas and flea eggs. When combing, the teeth of the comb can pass through the roots of the pet's hair, allowing fleas and eggs hidden within to hang on the teeth, thus achieving physical removal and avoiding reliance on chemical insect repellents.

EYE PATCH HM31

It is used to shield the affected eye after monocular surgery (such as cataract and retinal surgery), to avoid light stimulation and external interference, protect the eye wound, and promote postoperative recovery. It can also be used to correct monocular vision problems (such as amblyopia), by blocking the healthy eye and forcing the amblyopic eye to see, thereby enhancing the vision function of the amblyopic eye.

HOT/COLD PACK HM32

The core function of the cold and hot shoulder support is to provide dual care for the shoulder through cold and hot dual-mode physical therapy, including pain relief, swelling reduction, relaxation and recovery promotion. It is mainly used to relieve shoulder strain, pain and assist in rehabilitation.

HOT COLD SHOULDER PACK HM33

* With the same effect, this model is only used for the shoulder.
